

PRESS RELEASE 01.2 / 2025

NEW: ergotec EP-F Folding Pedal – Design Meets Functionality

Compact, comfortable and uncompromisingly functional – with the new EP-F folding pedal, ergotec expands its successful EP pedal series with an innovative and space-saving solution. Whether for transport, storage, or on the road, this tool-free foldable pedal impresses with its smart design and outstanding functionality.

The ergonomically concave tread surface with replaceable sandpaper ensures optimal grip and top-class riding comfort. The high-quality IGUS bearing guarantees long-lasting and reliable performance. Perfectly suited for folding and compact bikes as well as both conventional and e-bikes, the EP-F folding pedal offers maximum flexibility on every ride.

Highest Quality and Safety

Tested in ergotec's in-house test center, the EP-F folding pedal is approved for riders up to 120 kg.

Key Benefits at a Glance:

- **Tool-free folding** – for quick and easy handling
- **Space-saving** – ideal for transport and storage
- **Ergonomically concave tread surface** – for maximum riding comfort
- **Replaceable sandpaper** – for consistently excellent grip
- **High-quality IGUS bearing** – durable and low-maintenance
- **High load capacity** – designed for intensive use
- **Versatile application** – ideal for various bike types

With the new EP-F folding pedal, ergotec once again sets new standards in innovation, design, and functionality. The ideal choice for those who value space efficiency, comfort and uncompromising performance.

Technical Specifications:

- **Material:** Aluminium / Polypropylen
- **Size:** 100 x 102 mm
- **Bearing:** IGUS-bearing
- **Axle:** 7 mm CroMo
- **Weight:** 470 g (pair)
- **RRP:** 49,95 €
- **Item number:** 86063101

Orders can be placed now, with delivery expected in mid April 2025.
