Stand 02. July 2018

Clearance certificate

for conversion of the handlebar / stem combination with a 31.8 mm clamping diameter

Wilhelm Humpert GmbH & Co. KG hereby confirms that it has no objections to the use of the following handlebar/stem combination with "**Safety Level 6**" for **mountain e-bikes** with support of an electric motor up to a speed of 25 km/h and a permissible **total weight of 120 kg**.

The combinations have been sufficiently tested and meet the requirements of "**EN ISO 4210-5:2015 Mountain Bikes**". A risk analysis has been carried out. When used on a vehicle in its original condition no hazard is to be expected.

If the bike is converted as intended, where the length of the brake and gear shift cables and/or lines is not changed, the condition of the bike as prescribed by DIN EN 15194:2017 will be maintained.

Handlebars		Stems
