

REACH Directive

for handlebar grips and handlebar tapes

Wilhelm Humpert GmbH & Co. KG hereby confirms that no substance which appears on the current version of the SVHC list of substances of very high concern, which is published by the European Chemicals Agency (EchA), is contained in the following products in accordance with Art. 33 of the REACH Directive in a concentration of >0.1%, and that at the time of the order they meet the applicable regulations. In addition Wilhelm Humpert GmbH & Co. KG confirms that no short-chain chlorinated paraffins (SCCPs, CAS Ne. 85535-84-8) are required in the production of the products listed below, and are accordingly not contained in them.
